EASTERN DATES TO MARCH 4

EASTERN STATES

Fire at Philadelphia

PHILADELPHIA March 4—At nine o clock this evening a fire was discovered in the third story of Dr Jayne's granite building on Chestnut street The fire broke out in the rear of the building on Carter street and burned two hours It was believed it would be confined to that portion of the building, although the flames rapidly spread to the sixth story and the great height of the building was a great disadvantage to the firemen but the flames had got too great headway, and shortly after midnight the upper portion of the Carter street front fell with a crash but the side walls stands firm The Bank of Commerce and various broker's offices on Chestnut street will probably escape except damage from water

LATER—1 A M —The fire which was thought to have been checked has reached the eighth story on Chestnut street and the flames have spread to the circular window in the corner of the building A steady stream of water was thrown to this spot from an adjoining roof into a side window which checked the progress of the fire there It soon extended to the cupola, which the water could not reach and it was soon in a blaze presenting a magnificent spectacle from its elevation about 120 feet above the pavement

2 A M —The fire is now believed to be under control The cupola burned about twenty minutes and fell with a tremendous crash The lower stories are yet untouched by fire, and it is believed will escape Total loss by fire and water estimated at not less than $1 600 000

The new city gas company are hurrying up their works and laying down mains through Montgomery and Sansome streets They expect to have gas turned on through all the principal streets next week

A few days ago three large turtles were captured in the bay of San Diego, Cal The three weighed about 600 pounds Their presence in the Bay is accounted for by the fact that some years since Captain Bogart turned loose some 200 which were brought up from the Lower California coast by a small sailing vessel More recently five or six were thrown overboard and perhaps the captured ones belong to this lot The Chinese fishermen frequently find a solitary one in the Bay but the business of hunting them is not sufficiently profitable to tempt even a John Chinaman to engage in it.

Early Oregon History

ASTORIA March 4 1872

TO THE EDITOR OF THE OREGONIAN

Allow me in behalf of the truth of history to explain some statements recently found in your paper respecting the early settlement and the pioneers of this country

THE NAME BAKER'S BAY

was given by the Captain of the British ship *Chatham* in honor of the Captain of the American brig *Janet* Captain Baker from Bristol, Rhode Island who was lying in the bay when the *Chatham* entered on the 20th of October 1792 I have never heard before the name *Tonquin Bay* as applied in your synopsis of Governor Curry's lecture on the evening of the 27th of February

THE FIRST SETTLER

was Captain Thomas Winship of the ship *Albatross* not Captain Smith, who was one of the mates and afterwards entered the river as master of a vessel the name of which I have not yet learned Captain Thomas Winship commenced the settlement at Oak Point in 1810, and abandoned it on account of high water that year

The American Fur Company's property and settlement finally passed into the hands of the Hudson's Bay Company, It was betrayed into the Northwest Canadian Fur Company's hands and held by them till 1821 when the two were united and held the Indian trade of the country under the charter of the Hudson's Bay Company The French Canadian Company held the country for seven years, and were obliged to submit to the English Hudson's Bay Company by act of Parliament July 2 1821

The first American settler known is now the honored President of the Pioneer and Historical Society of Oregon He was the first school teacher at Vancouver and on French Prairie, now Marion county He arrived in the country October 9, 1832 Started for this coast with Captain Nathaniel Wyeth over the Rocky Mountains March 11, 1832 The two persons named in Governor Curry's lecture came with Captain Wyeth's second party in 1834.

THE BEGINNING OF GOVERNMENT

There is and has been a strange, unaccountable and quite unreasonable disposition in a portion of the pioneers of this country to claim precedence in the attempt of organizing a civil government for the early settlers Some of them have already had printed over their own names their views and have in a peculiar manner left out of the account important facts and men which they took a prominent part in, and at the present day are claiming to have acted a different part I do not propose to make statements, but to explain as far as I am able from data before me Ex-Governor Curry is reported to have said in speaking of the committee of twelve appointed at the mass meeting to protect our animals that "they reported on the 4th of July, 1843 recommending an executive committee of three a legislative committee of twelve"

The meeting called at the house of J Gervais the 1st Monday in March, 1843, (just 29 years ago this day) appointed a committee of twelve to consider the expediency, and if agreed to call a mass meeting in May following, for the purpose of organizing a provisional government for the country. The meeting in May appointed a set of officers then deemed necessary, and also a legislative committee of nine, to report at the adjourned mass meeting on the 5th (not the 4th) of July The meeting on the 5th of July adopted the recommendation of the legislative committee of nine, also the organic compact and laws they recommended The legislative power was as per 6th Article, vested in a committee of nine See the Oregon archives page 29.

The meeting in 1841, except in the appointment of Dr (not Rev) Babcock was an utter failure, made so by a conflict between the Roman Catholic and Methodist Missions, the foreign and American interests then actively working in the country for supremacy The Methodists were too selfish and the Catholics too bigoted to be trusted by the settlers They both had to be dealt with indirectly as written and printed documents of that day abundantly prove

I am taking it for granted that ex Governor Curry has been correctly reported in your paper of the 28th of February I would say to him or any other person who wishes to lecture on Oregon history or the settlement or pioneers, that they are welcome to a perusal of all the old books journals and documents I have been able to collect. They are probably as full and complete, as to dates and transactions of those early times in the country, as can be furnished by any one at the present day. I have had occasion as you are aware, to look them up and carefully and critically compare dates and statements for the present and all future occasions All these books and documents, with all others we can collect, with the private journals entrusted to our care, will be carefully preserved in our library, subject to be published only with the consent of the donor or author of the manuscript with or without the author's name as they may direct

Allow me to say further that the journals of any married or unmarried ladies in coming to this country by land or sea or while in the country will be thankfully received—and preserved as above W H G

GENERAL NOTES AND NEWS

Two United States soldiers were frozen to death near Milwaukee Wisconsin, during the cold weather in February

Chicago packers have cut up this winter 250 000 hogs more than they did last The fire has not extinguished the pork interest

Rev Dr Robinson of Rochester New York, has accepted the election to the Presidency of Brown University at Providence Rhode Island

A recent dispatch from New York says It is now reported that the ring thieves have consented to compromise by paying $4 000 000 It is probable that $5,000 000 will be agreed upon

At the time of the murder of Jim Fisk Mrs Stokes wife of the murderer was on the Atlantic on her way to join her husband and of course did not hear of the sad occurrence until her arrival in New York

Rumors are current that the New York *Sun* and the Cincinnati *Enquirer* are going to stop publication They can t raise an idea for an editorial since President Grant's father resigned his place as Postmaster at Covington

Says the Cleveland *Leader* Charming New York! They are betting $100 to $50 on Wall street that Stokes will not be hanged If the Twelve Disciples had lived in that neighborhood they would no doubt have backed Judas against the field and given long odds on his winning the game

The impression is gaining ground at the East that all the elements opposed to Grant will try to unite on Judge Davis The Chicago *Times* of the 24th of February has two significant editorials with regard to the probable candidate of the Democrats for the Presidency The articles plainly indicate a preference for Judge David Davis, of the Supreme Court as the candidate of the united opposition to Grant and are thought to represent the views of a large number of Democrats in Illinois particularly

Vancouver's public square was sold by the Sheriff on Monday Hannah E ... hort s interest therein brought $126

VANCOUVER March 5 1872

TO THE EDITOR OF THE OREGONIAN

SIR The case of the Catholic Mission of St Rosa, at Walla Walla vs B W Bussell *et al*, involving the right of the Mission to hold a claim of 640 acres in sections 2 3 10 and 11, in T 6 N, R 35 E under the second proviso of the first section of the Act of Congress establishing the Territorial Government of Washington which was appealed by the defendants from the decision of the local land office to the Commissioner of the General Land Office has been by him reversed

On or about the 15th of February 1852 E C Chirouse a Catholic Priest settled upon a portion of the land in dispute under the Oregon Donation Act of September 27th, 1850, claiming 320 acres under the 4th section of said Act It does not appear that Chirouse made the proofs required or furnished any documentary evidence to perfect his title other than his notification and a copy of his declaration of intention to become a citizen of the United States

On the 5th of September, 1860 A—M A. Blanchet Bishop of Nesqually made a notification which appears to have been filed in the local land office, September 9 1860 claiming on behalf the Catholic Church, the land notified upon and claimed by Chirouse, together with 320 acres additional as a Missionary claim, under the Act of March 2d, 1853 organizing Washington Territory, designating the same as the St Rosa Mission,' and with said notification of Blanchet are affidavits to the effect that the land claimed by Bishop Blanchet was occupied as a Missionary station among the Indians "from the year 1852 to the Indian war of 1855–6, which was the identical period the land was occupied by said Chirouse as a donation claim When the act of March 3d, 1853, was passed, confirming to the several religious societies the land occupied by them as Missionary stations among the Indians Chirouse had acquired an inchoate right to the land upon which the alleged Mission buildings are said to have been located, that could be defeated only by his own acts; and that right continued in him until his agent relinquished the claim to the United States on the 23d of April 1862, when it had become too late for the church authorities represented by Bishop Blanchet to set up a claim and consequently the land claimed by Chirouse reverted to the public domain to be disposed of, subject to the then existing laws governing the disposal of the public lands

I am therefore of the opinion says the Commissioner "that the claim set up by Bishop Blanchet on behalf of the Roman Catholic Church has no foundation in law and should be respected as of no validity, and I so decide. Your decision in favor of the Mission claim of B W Russel, et al, no opinion is expressed as they will be matters for consideration when reported for adjudication under the laws upon which they are founded Sixty days are allowed from service of notice in which to appeal

"Liberal" Republicans

[From the Chicago Evening Mail]

Every now and then the exigency of the times, or the ingenuity of man, calls for the creation of a new word or a new term And one of the peculiarities of these new terms is, that the words used bear no relation to the meaning intended to be conveyed by the phrase The term at the head of this article is one of the latest of these inventions The Missouri bolters, who united with the Democrats and especially the anti-war Democracy style themselves 'liberal Republicans ' while we think they are the most *illiberal* Republicans that we know of They are not possessed of sufficient liberality to allow anybody the privilege of thinking upon any subject, different from themselves, and because a large proportion of the Republican party choose to think for themselves, and do not yield their convictions to these few Missouri bolters, who misname themselves 'Liberal Republicans ' propose to join the Democracy, and to do their best to break up the Republican party. What liberal, magnanimous Republicans they are! They are a good deal like certain scoffers at all religions who call themselves 'liberal Christians ' but in reality are very illiberal unbelievers They have less charity for those who do not think just as they do than the strictest sect of real Christians

As for the "Liberal Republicans of Missouri, we should like to know by what right they claim to be Republicans, at all? They repudiate every distinguishing principle of the party, and because they cannot rule, they are anxious to ruin it. They are liberal to nobody but their enemies Fortunately for the country those 'Liberal Republicans are powerless for evil. They cannot accomplish half the evil they would like to The Republican party will go on and make their nominations and then elect their candidates without so much as saying by your leave to the Liberal Republicans, who have sought refuge in the bosom of Democracy

A branch of 'Liberal Republicanism has been planted and they say has taken root in Cincinnati and a convention has been called there, to follow in the illustrious footsteps of the Missouri bolters and recommend the same course to the whole Republican party But the recommendations will not be heeded There is not life or reputation enough left in the Democratic party to induce a baker's dozen of honest and honorable men who have a speck of patriotism left to desert the principles that have done so much for the country and throw their votes away upon the possibility of defeating a candidate against whom those Liberal Republicans have conceived a prejudice It should be understood, that those *liberal* Republicans, who are so early in the field for their work of disorganization are not Republicans at all They have but one object and that is to secure the defeat of the Republican party in the next national election Their liberality consists in the capacity to sacrifice their friends to their enemies provided they can get enough to pay for the trouble of holding conventions and publishing denunciatory resolutions Their liberality is like the patriotism of A Ward who was so willing to lay all his own and his wife's relations on the altar of his country but had no taste for laying there himself They are very liberal in sacrificing a party in which they have no interest But the Liberal Republicans of Missouri will find they cannot sacrifice the party so easily as they imagine They can transfer themselves and that is all

Workingmen and the Tariff

The following resolutions were adopted a few days ago by the bar iron manufacturers at a meeting held in Philadelphia It will be seen that the main argument in favor of retaining the present tariff on bar iron is the benefit it confers on the workingmen in increasing the demand and upholding the price of labor

"We the bar iron manufactures of the United States in Convention assembled at Philadelphia representing with kindred interests over one million workmen the value of whose productions in 1871 amounted to $900 000 000

Resolved, 1st That in the adjustment of the national revenue wages and interests of capital should be taken into account and no changes be made to their injury

2d That the enormous increase of iron manufactories within the last decade and the collateral benefit to the industry of the whole country can be traced directly to the protection given to the interest during that period

3d That the present prosperity of labor in the United States, enabling working men to occupy a higher position in social life, with privileges and comforts unknown to workmen of any other county is attributable to the liberal prices paid for labor under a protective policy

4th That their wages are dependent upon the price of the manufactured article and a reduction in the tariff means a reduction in the wages paid for American labor

5th That the present duties upon iron are not giving to labor and capital more than a *fair* return for the work performed and the risks involved, and any reduction of the tariff would eventually close our mills and furnaces leave without means of support our workingmen, prove disastrous to the farmers and shop keepers and cripple, all other industrial interests

6th That further as American citizens, we protest against the adoption of any policy which shall retard the development of our country, and place us in a condition of dependence upon foreign nations for our manufactures

Protection and Free Trade.

The following is from the Pittsburg *Commercial*

The Cincinnati *Commercial* can see nothing in protection except a system which compels "the workingman to pay thirty dollars for a suit of clothes," in order to "foster our infant industries, and all that sort of thing According to the *Commercial* the employment of home labor is a matter of no consequence whatever Our quarries and mines our factories, furnaces and forges the manifold productive industries and interests of the country, with the millions of capital they employ and the immense population they support—are of no moment, if things can only be bought at lower rates than at present But what benefit is to be derived from merely cheapening commodities, if the working men have no money with which to purchase them? "Twelve eggs for sixpence" ... the Irishman ... in hand Why do the English ... who can get a suit of clothes for ... dollars at home, emigrate to the United States, where, according to the *Commercial*, he must pay thirty dollars for the same article? ... he has compared the standard of European and American remuneration, and knows that the prosperity which protection gives to our industrial enterprises will insure him wages with which he can not only pay the higher rate more easily, but can also save money besides Did our contemporary ever hear of American mechanics emigrating to free trade England in order to benefit their condition?

The authenticity of the Canadian Independence Treaty is ... by Halifax ... The *Chronicle* of that city ... positively that it was signed after the conclusion of the Washington negotiations. The points had been agreed on some years previously, and so far as Great Britain was concerned it had then been definitely settled as a basis of her future colonial policy When Lord Bury long since published his draft of the treaty, it was not deemed advisable to reduce the understanding to the shape of a formal contract, and the apparently ... of all difficulty by the Washington Treaty had it was thought finally relieved England from danger and further entanglements in this contract The *Chronicle* says that Lord Lisgar, Sir John A. Macdonald, and Sir George E Cartier, are cognizant of the treaty, and ... tions instances which indicate the fact of its existence

Those who are disposed to complain of the climate of Oregon should read this from Minnesota The severe storm which swept over the State recently was attended with numerous casualties Near Beaver Falls, a lady, in the absence of her husband, endeavored to go to the barn and care for the stock She was accompanied by her sister, ... They left two children in the house alone Three days afterward the husband returned, found the children on the bed, covered with snow and just alive Learning of the absence of the two women, he went in search of them The body of the young lady was found about a half mile from the house and that of the wife over a mile out on the prairie Several other fatal cases of freezing are reported in the vicinity of Fond du Lac

Of Six Years' ...

PORTLAND OREGON, Feb 23, 1872

TO THE PUBLIC —I wish to add my ... to the number that Dr ABORN has received while here For about six years I suffered terribly with Granulated Sore Eyes being nearly blind at times and life was but a burden to me in this miserable condition No treatment that I had ever received done me any good I was advised to apply to Dr Aborn some six months ago, but was deterred from doing so at the time as some said that he was so high in his charges that I thought it was useless for me to apply Some two months since I learned that he was not only certain to cure all such ... of the eye but that his charges were in many cases even less than those who charged me by the visit so I applied to Dr Aborn and informed him of my long suffering ... circumstances The Doctor seeing that I was in a pitiful condition he at once proposed to cure me and would make no charge unless I was able to pay I hardly knew how to accept such a generous offer I placed myself under his treatment, and in two weeks time I looked and felt like another person and to-day I am well, with sound eyes thanks to the Doctor's skillful treatment. I have paid the Doctor only a small amount He would not accept more as I am a poor woman Such kind treatment as I have received from him—a stranger—was so unexpected that I hardly knew how to express my heartfelt gratitude The afflicted who apply to Dr Aborn will find him a kind hearted and charitable gentleman I have lived in Portland about 20 years and am well known to most of our old citizens

A Stringent License Law

Much has recently been said in Oregon in favor of modifying the laws regulating the sale of spirituous and other intoxicating liquors and the present is therefore a very suitable time to consider recent legislation by other States on the subject Ohio and Illinois have recently enacted liquor laws which are similar in some of their principal features The Ohio law does not require the dealer to take out a license but makes him responsible for the consequences of the sale of liquors the Illinois law both requires the license and imposes the responsibility In both States the attempt is to promote temperance by legislating against the abuse instead of the use of intoxicating liquors

The Illinois law enacts that no intoxicating liquors shall hereafter be sold in the State, without a license and that no license shall issue unless the party applying therefor shall give a bond in the penal sum of $3,000 with two freehold sureties conditioned that they will pay all damages to any person in person or property by reason of the selling of liquor under said license, the penalty to be received in the name of the State for the use of any person injured by liquor sold by such licensed person Sales of liquors to minors or to intoxicated persons are prohibited All places where intoxicated liquors are sold without a license or to minors or to intoxicated persons are to be considered common nuisances and shut up and abated as such upon the conviction of the keepers thereof All persons who sell liquor with or without a license thereby causing the intoxication of any other person are to be liable and compelled to pay a reasonable compensation to any person who takes care of and provides for the drunkard, and $2 per day in addition for such time the drunken person may be kept Every person who shall be injured in person or property, or means of support, by any intoxicated person or the consequences of the intoxication of any person, shall have a right of action against the seller or giver of the liquor causing the intoxication, in whole or in part and any person owning or renting leasing or permitting the occupation of any building or premises, and having knowledge that intoxicating liquors are to be sold there or who, having leased the same for other purposes, shall knowingly permit therein the sale of such liquors shall be liable, with the seller, for all damages [illegible], and for exemplary damages and a married woman shall have the right to sue under this act as a *femme sole*, an unlawful sale of liquor shall work a forfeiture of all rights of the lessee or tenant For selling liquors without a license, or to a minor or intoxicated person, the penalty is not less than $20 or more than $100, and imprisonment in jail from ten to thirty days, persons convicted of keeping houses declared by the law to be common nuisances, shall pay not less than $50 or more than $100, and be imprisoned from twenty to fifty days, and the persons convicted shall be required to give bond in the sum of $1,000 not to sell liquors contrary to the laws of the State The giving away of liquors is declared to be selling in the contemplation of law

For the payment of fines, costs and damages under the act, it is declared that the real estate and personal property of the person shall be liable,—and the same shall be a lien upon such property until paid, and the building or premises used or occupied for the sale of liquor shall be liable for, and may be taken and sold to pay fines, costs and damages assessed against the occupants, and, pending the suit for the recovery of such damages, security may be had to subject such property to the payment of the amount which may be recovered In case such building or premises be the property of a minor or insane person, then the real and personal property of the guardian of said minor, etc shall be liable It will be seen that landlords renting premises for the sale of liquors really assume all risks and become liable for all the pains penalties and damages resulting therefrom Such a law it will be seen at once, will tend powerfully to take the sale of liquors out of the hands of irresponsible persons It will so multiply the difficulties and penalties resulting from the abuse of the sale of liquors that none but men of standing and responsibility can obtain license to sell, or premises to occupy

A Little Matter of Gold Pens

It is recorded in the report of the Commission of Investigation that C A Reed late Adjutant General, "a day or two before he went out of office,' purchased two gold pens worth $16 50 or $17 50, and had them charged to the State, but failed to turn them over to his successor In other words, Gen Reed took this method of supplying himself with two gold pens for his own use, at the expense of the State, The Commission proceed to say that "Gen Reed was not to blame for this little irregularity he was "simply led off by loose ideas concerning such matters,' etc

If the facts are as stated, we disagree with the Commission, and think decidedly that Gen Reed *was* to blame The idea that it is necessary to have costly gold pens to transact public business is absurd and it is rather worse than absurd for an official to buy them a "day or two' before quitting office, have them charged to the public treasury, and then keep them There could be no possible motive for such an action except a desire to get some valuable property for private use or advantage, at the public expense This is just what *we* think of the transaction

The Chicago *Evening Mail* says that American salt sells in the Chicago market at $1 39 (gold) per sack of 210 lbs, or 51 cents (gold) less than the foreign dealer demands Some people, as our neighbor of the *Herald* seem to want free trade and the suppression of American salt manufacture so as to get cheap salt Their policy is weak Their theory will not bear investigation

The Salem *Mercury* says that Secretary Chadwick has drawn no warrants in the absence of appropriations to meet them since Judge Boise's decision against this practice was rendered Inasmuch however as he drew such warrants before that time his conduct is identical with that of Secretary May which is so severely censured by the Investigating Commission

The Philadelphia *Inquirer* of the 1st of February says the bonds of the Northern Pacific Railroad are growing rapidly in favor During the month of January the sales aggregated $1 514 000 This does not include the bonds sold in London where several millions were taken in a remarkable short space of time

The "Coalition"

It appears that irreconcilable differences of opinion are arising among those who are trying to form a third party for the sake of beating Gen Grant For instance the New York *Tribune* thus replies to a statement that it may go with the Bolters

> No the *Tribune* is likely to be *against* the Bolters since they are almost certain to make hostility to Protection one of the planks of their platform and *that* the *Tribune* can never abide, no matter who may be the rival candidates for President Now that Emancipation is a fixed fact Impartial Suffrage nearly so and Universal Amnesty inevitable here is no remaining national issue which is half as important in the view of the *Tribune* as that of Protection vs Free Trade We have no shadow of doubt that the overthrow of Protection would be speedily followed (as in 1818-20 and again in 1833-7) by a sweeping industrial collapse and commercial bankruptcy which would carry hunger and distress into the homes of millions of our countrymen To such a calamity the *Tribune* cannot contribute even passively for any conceivable consideration

The *Tribune* is clearly right in its supposition that opposition to Protection will be one of the planks of the Republican-anti Republican platform on which discontented Republicans and Democrats are expected to unite for a common end When the country gets ready for a change that will inevitably result in the downfall of its prosperity it will probably elect a Democratic free trade-Republican anti Republican administration

Sacredness of Treaties

During the year 1870, when Russia proposed to break the Black Sea treaty, England held that treaties were of that sacred nature that they could not be violated Granville wrote as follows to Gortschakoff

> The dispatches of Prince Gortschakoff appear to assume that any one of the powers who have signed the engagement may allege that occurrences have taken place which, in its opinion are at variance with the provisions of the treaty and although this view is not shared nor admitted by the co signatory powers they may found upon that allegation not a request to those governments for the consideration of the case, but an announcement to them that it has emancipated itself or holds itself emancipated from any stipulations of the treaty which it thinks fit to disapprove of Yet it is quite evident that the effect of such doctrines and of any proceeding which with or without avowal, is founded upon it is to bring the entire authority and efficacy of treaties under the discretionary control of each one of the powers who may have signed them, the result of which would be the entire destruction of treaties in their essence

Let us see now if Great Britain will withdraw from the Treaty of Washington, and hold itself "emancipated' from the stipulation of that Treaty, on the ground that it has received a new view of its interest and "thinks fit to disapprove them

The expenses of the Commission appointed at the last session of the Legislature to investigate the accounts of this State are given at $3,123 10 This is exclusive of the cost of printing the report, which will add at least $3,000 more The results of the investigation are practically of no consequence, since little or nothing really new has been revealed Partisan ingenuity has been exerted to the utmost to make out a case, trifling acts (some of which deserve censure) are exaggerated and magnified, and no pains or expense has been spared to get out a creditable campaign document Such is a general summing up of this 'report'

The New York *World*, the great Democratic organ of the country is not very complimentary to the Democratic Senator from Oregon In giving a sketch of Kelly it says that "it seems a great waste of raw material to send such a man to the Senate when there are forests to be felled, railroads to be built and canals to be dug'

A short time ago a direct vote was taken in the House on the validity of the thirteenth fourteenth and fifteenth amendments Eighty Democrats were in their seats when the vote was taken Of these, twenty-two voted square against the resolution and twenty dodged Does this look like a regenerated party?

SHORT PARAGRAPHS

Omaha, Nebraska is puffed up with pride because it has been called the wickedest place in North America—wickeder even than New York This is the candid opinion of a correspondent who writes thence to the *Universal Gazette*, of Augsburg, Germany

Decidedly the cleverest matron in all Europe is the wife of the present King of Denmark Just consider the fine "matches' she has managed to obtain for her children One daughter is the future Empress of Russia, the other the future Queen of England one of her sons is the King of the Greeks and now the son in law of a Czar

Says the New York *Herald* Vancouver's Island, on the Pacific coast, is a beautiful piece of property, and exceedingly valuable on account of its coal mines, making the island an important coaling station for steamers in the North Pacific It is now a British possession, but let England break up the Geneva Conference, and away goes Vancouver's Island

Hong Kong certainly has enough of insurance companies According to a directory just published, and noticed in the Hong Kong *Advertiser* the foreign community in that city has by actual computation, 7 600 residents, and the number of fire and marine insurance companies is eighty-four! Perhaps the object has been to furnish profitable paying positions to as many persons as possible

Iowa has a population of 1,191,792, and yet it is stated that there is not a member of either branch of its Legislature who was born in the State The Senate consisting of fifty members is made up of the natives of fourteen States including three foreign born Of the one hundred members of the Assembly ninety two are natives of seventeen States the balance being foreigners These facts are adduced as showing the rapidity with which new States are made up from the old ones In 1840 the State of Iowa had but little over 43 000 inhabitants

RIGIDITY OF THE JAWS IN DROWNING PERSONS NOT A SIGN OF DEATH —A recent writer assures us that the rigidity of the jaws in a person taken out of the water after long immersion, instead of being a sign of death is really an indication that life is still present, as it disappears only when life is actually extinct This of course is not to be confounded with the stiffening of the entire body after death but refers entirely to the local symptoms We are therefore advised, under the circumstances indicated not to lose hope, but to continue to make use of all the methods that present themselves as appropriate for the restoration of suspended animation whether by the injection of air into the lungs or by other means

German News.

NEW YORK, March 5.—In debates on public education in the Prussian Parliament Feb 8th, one opposition member complained that Bismarck was absent and denounced him as a sworn and wily enemy of the Church of Rome and not hesitating to ride rough shod over sacred convictions of Catholic subjects Bismarck was informed without delay of this personal challenge and stepped into the House with large strides and a stern countenance. He said he should be delighted to have a Catholic colleague in the Cabinet if he was prepared to conform to the general politics of the Cabinet A man may be a royalist at heart and still be an enemy of a certain royal family and the monarchy over which it presides First, Bismarck warned Polish members that no attempt had been made to force the German language upon them and yet the Polish nobility and clergy had done all in their power to prevent villagers from leaving Germany and forming opinions of their Government This must be changed, and if Polish gentlemen once more complain of official disrespect to their mother tongue, I promise them I will answer their unjustifiable accusation by proposing measures calculated to promote the spread of German among them For the present, I will only depose those Polish superintendents who have not been faithful teachers of the German language.

OREGON

The number of school children at Dallas, Polk county is 232

There is a move on foot to establish a public library at Dallas

The wife of Sheriff Matheny of Marion county died on Sunday last

The census of Oregon City gives a population of 1 100 Last year 924

Wild hogs are increasing in the woods and swamps of Umpqua valley

The *Oregon Republican* Dallas Polk county, has completed its second volume

John L Starkey a citizen of Salem for many years, died on Sunday night last aged 63

In Douglas county last week, Lafayette Miller a youth of 16 or 17 years, who has been in poor health, attempted recently to shuffle off his mortal coil by taking a dose of strychnine His recovery is doubtful

More than the usual interest is manifested in the cause of education throughout Polk county this season Districts are refitting old school houses building new ones and endeavoring to secure the services of competent teachers for the summer term

Three culprits escaped last week from the Douglas county jail Two of them were the brothers, Levens, who were committed for beating their old father Whether they have repeated this filial demonstration since they got out of jail we have not learned

There is a crowd of boys at Salem who seem to be persistent candidates for the penitentiary On Sunday evening they went to the Evangelical Church, and during the service hung round the door yelling, hooting and swearing After the congregation had gone they attacked the sexton John Ray knocking him down with a slung shot and beating him Promising boys

Says the Roseburg *Plaindealer* The *Mercury* draws a wrong conclusion from the fact of the trial line run by the O & C R R through Looking Glass There has been no attempt to "bleed the citizens of Roseburg to the tune of fifty thousand or more" or less They have asked for the right of way gratis and it has been cheerfully given The devil is not so black as he is painted

A Roseburg paper says We are informed that Major Robert U S A, will probably visit this valley at an early day with a view of examining the obstacles to the navigation of the Umpqua river We believe the river can, at a reasonable expense, be rendered navigable and hope the project will not be abandoned." We haven't much confidence in the feasibility of this enterprise, and think it will lead to no practical results

THE TERRITORIES.

The number of voters registered at Olympia is 334 At the last election 240 votes were thrown

The Washington Water Pipe Company near Olympia has expended $14 000 on buildings and machinery It has an order for ten thousand feet of pipe for California

A German named August Guerschner was found dead in his bed a few mornings since in Lewis county, W T He had worked the whole of the preceding day and gave no signs of his approaching dissolution

The Olympia *Transcript* hears that the balance of the money due the Puget Sound Agricultural Company and Hudson's Bay Company has recently been paid over to those companies by the State Department This information comes through Dr Tolmie, of Victoria

Says the Seattle *Dispatch* Parties came up from San Francisco by the last steamer who have made arrangements to build several ships and brigs here during the coming summer A vessel is now on her way up here with men and material and work will commence immediately

The land disposed of at the Olympia Land Office during the month of February was as follows Cash entries 1 124 homestead entries, 1 255, agricultural college scrip locations, 1 240 certificates issued to donation claimants, 1 902, pre emptions filed 6 579 27 100 Total number of acres, 12 100 32 100

A Port Townsend letter says it is rumored that 'Garfielde has placed a letter of withdrawal as a candidate for Congress in Sam Coulter's hands which will soon be published and that the Garfielde men will center on Judge Jacobs as their candidate Also that in the event of his nomination he will resign as Chief Justice and Garfielde will assume his place." Probably idle gossip

A private telegram received at Olympia on Wednesday last from Hon S Garfielde states that the bill making the day for electing Congressmen uniform throughout the Union, had passed the House and would undoubtedly become a law In anticipation of the passage of this law the Territorial Legislature at its last session amended the election law so as to make the election of Legislative county and precinct officers come off at the same time with the election for delegate If the bill passes the Senate there will be no election of any kind in Washington Territory until November

THE SECOND LECTURE OF THE COURSE WILL be delivered by W D HARE, Esq, on
Wednesday Evening, March 13th, 1872,
at 7½ o'clock
SUBJECT—"Ought we to have a National System of Compulsory Education
This subject is rapidly assuming great importance in the minds of the people of the United States The sentiment is growing that we should not longer be content to see ourselves surpassed by the more advanced governments of Europe Our existence as a nation depends upon popular education, and our advancement in national power wisdom and virtue will keep pace with its extension, Already has a bill been introduced in Congress looking toward the establishment of a National System and we shall soon find it to be an important element in our politics
MR HARE has devoted considerable study to this subject and his Lecture will be a plea for a national law showing the necessity for it in a moral religious and civil point He will show the errors in our present system and prove that we have the power to remedy the defects by Congressional enactment
No one who has the welfare of his country at heart can afford to miss this Lecture. It is impossible to overestimate its importance Of Mr Hare's ability to treat this subject it is unnecessary to speak. He is well known in this community as a man of profound and honest convictions a lawyer of much ability and a fluent and agreeable speaker His name is sufficient guarantee that the subject will be presented with all the power which its importance demands mh6dtd

WHAT IT COSTS TO PULL A NOSE —This question has been judicially settled Some months since Mr Hallock who is chief of the Police Commission, indulged in the luxury of tweaking the nose of a man who was impudent enough to be "sassy" to him He promptly atoned to the offended law by payment of a fine and costs in the Police Court amounting to $18 Thus was the dignity of the State made whole Then there ... the wounded nose and the wounded pride of its owner to be settled for The proprietor of the nose thought that $10 000 was about the figure that would make everything lovely Mr Hallock on the contrary thought quite otherwise, and thus was cut off all chances for an equitable adjustment and the restoration of amicable relations between them The owner of the nose being determined that so small a matter as a wounded nose should not prevent himself and the Lord High Commissioner from rushing into each others arms and hugging upon each others coat collars made an other overture through the mediation of the Circuit Court, and the result has just been made public. After long and earnest persuasion on the part of the proprietor of the nose to induce Hallock to see the matter through the same lenses as he, the proprietor, used and long and stubborn ... on the part of Hallock to see the matter ... any lenses whatever, the conundrum was ... to twelve mutual friends of the parties who at once brought the heft of their intellects to bear on the question They considered the ... in three points of view 1st Hallock had ... tweaked a nose 2d, the peace and ... of the State had been thereby broken ... the nose had been thereby damaged, not ... its symmetry, but in its sensi... in law as the proprietor's feel... twelve mutual friends concluded that ... is a luxury, and that as Hallock ... luxury, he ought to pay at least such ... should appear to be really worth, that ... had offended the State, he ought to pay ... it might approve the peace and dignity of the State was worth, but as he had already made it right with the State, they would not inquire as to whether the State's dignity had been ... too cheaply, but would take it for granted that the said peace and dignity was worth $18. Then it only remained to ascertain the value of the damage to the nose, and as the shortest way to get at this, they first calculated what was the ... of the broken peace and dignity and the nose, and the feelings in the aggregate This being ascertained to be $50, the mutual friends ... $18, the State's moiety, and found that the sum of $32 remained for the healing of the nose. This method of adjusting was a little original, but it must ... be admitted that it ... took into consideration all the values in the case, and arrived at ... the value of ... can no more be questioned than can be the ... of the process It, therefore, stands ... recorded that the luxury of pulling a nose is worth $50, item for the State, $18 item for the nose, $32 And there now remains no good reason why the hitherto estranged parties ... not at once discover ... marks" on each others ...

A GRAIN ELEVATOR

TO THE EDITOR OF THE OREGONIAN

SIR I notice in a recent issue of your paper that G W Vaughn, Esq petitioned the City Council, on Wednesday evening last to vacate the foot of Madison street so that he thereby might have sufficient room—he owning the property adjoining—to build a first class grain elevator I learn that Mr Vaughn stands ready to expend $100 000 if necessary in order to secure the erection of a first class grain elevator provided the city will vacate the foot of Madison street for his benefit

The erection of an elevator in this city has become a great necessity It would be of incalculable benefit to our commerce and a very great convenience to our grain growers The people of this city should, therefore do all they can do in both a corporate and an individual capacity to secure its erection

A grain elevator is just what this city has needed for the past ten years If one was built —and by simply vacating Madison street the city can secure one for Mr Vaughn has ample means and will, as he has always done perform what he undertakes—the wheat growers of the entire Wallamet valley could have a chance to store their grain so as to take the best advantage of the market So also vessels wishing to load with wheat for foreign ports could at once and without any delay receive their full cargo For one I do not believe the city could make a better movement than to vacate Madison street and thus secure a grain elevator which has so long been needed here Besides Madison street is not, nor has it ever been used as a thoroughfare of outgoing and incoming travel and, therefore the objection to its being vacated by the city does not lie as it would if it were a street occupied now or to be occupied as an outlet to travel

I hope, Mr Editor, that the Council will vacate the street, so that we can secure what we need—a Grain Elevator CITIZEN

Mine Disasters

INVESTIGATION USELESS UNLESS FOLLOWED BY PROMPT PUNISHMENT OF THE GUILTY

[From the Scranton (Pa) Republican February 9th]

Of course an investigation must be made as to the cause of the late explosion at one of the mines near Pittston by which three men lost their lives These investigations cannot be avoided as it is one of the duties of mine inspectors to make them That they are of any practical benefit to the living or dead has not yet been established on the contrary experience teaches that they amount to nothing for the simple reason that the friends of the victims are often silenced by the pittance of a few hundred dollars from carrying the matter beyond the verdict of the jury of inquest Since the terrible disaster of the West Pittston and Eagle shafts it is not wonderful that these investigations are regarded as the most stupendous farces The jury in the case of the West Pittston holocaust last May rendered a most just and fearless verdict showing that the mine had been operated in direct violation of the Ventilation law and that the mine Inspector under that law had been criminally derelict in his duties that he had permitted the mine to be operated in violation of law and that to this negligence and the cupidity of the operators the fearful loss of life was solely chargeable What was the result of this honest and fearless verdict? It might just as well never have been rendered. After a fund had been contributed by the charitable people of all parts of the country the money was divided between the poor widows and orphans, each receiving a few hundred dollars in consideration of which the sufferers were induced to sign releases for all damages to the operators of the fatal mine! The mine inspector was even retained in his position, and there the matter ended With such an example before us—where a sweeping verdict of criminal negotiations and disregard of law are equivocally charged—it is a question whether investigations are really worth the paper the evidence was written on The same thing was repeated in the case of the Eagle shaft disaster though the verdict of the jury in that instance was less explicit

It is now charged that the late casualty near Pittston was the result of negligence and disregard of the mine ventilation law Whether this is so or not we do not know but we have no idea that anything will be done about it even if the jury so find. Investigations into the causes of accidents in mines to amount to anything must be carried out in accordance with the verdict rendered, otherwise they might as well be dispensed with

THE MARVELS OF SCIENCE —A talking machine is on exhibition at Cincinnati, which is characterized by the press of that city as a wonderful triumph of mechanical skill and ingenuity The machine which stands on a small table consists of a complicated arrangement of rubber tubes, reeds, keys pedals strings and wires The lungs are represented by a pair of bellows operated by a pedal, the glottis and trachea by reeds and pipes, and the lips and tongue by India rubber The machine has an upper and lower jaw, and lips and a tongue, but no nose In the formation of sounds where the air passes through the nostrils, as m and n, by a simple arrangement the glottis is opened for the passage of the air, accomplishing the same result as in the human vocal organs The machine is able to utter fourteen simple sounds, the remainder being formed by combinations of these primitives It talks phonetically, of course that is, by sounds alone, without any silent letters. The valves are operated by means of keys, similar in arrangement to the key board of a piano The machine talks German, English Greek and Hebrew words and sentences with great distinctness, and by an attachment to produce the nasal sounds, it pronounces French with great ... By the opening and closing of the glottis, the pitch of the voice may be varied from high to low, but in whatever key a sentence is pitched it is pronounced to the close, suffering no modulation, except a falling inflection at the close Every part of the machine is open to inspection, and the newspapers declare that there is no possibility of fraud

The Koenigsberger *Zeitung* contains an account of the Prussian torpedo boats, three of which are already finished and in the port of Dantzic three unfinished, destined for Kiel, and a number more under construction. These boats are cigar shaped and shot-proof against the rifle and mitrailleuse In the bow is the rudder, and in the stern an observatory, with a peep-hole about the size of a thaler, the funnel hardly three feet above water and of very small diameter. The whole boat is about 40 feet long and the only parts above water are the funnel and the observatory The bridge is on a level with the water and protected by a double shield It is of a gray color and very fast The construction of the torpedoes to be used in connection with those boats is not made public

THE LAMP IN A SICK ROOM —The following simple arrangement will remedy the evil of foul gas generated by burning a kerosene lamp all night in a nursery or sick room Take a ... or any other suitable sized box that will contain the lamp when set on end Place the lamp in the box, outside the window with the open side facing the room When there are blinds the box can be attached to each by leaving them a little open and fastening with a cord, or the lamp box can be nailed to the window casing in a permanent manner The lamp burns quite as well outside, and a decided improvement of the air in the room is experienced.

A lot of wealthy New York epicures have chartered a vessel for the purpose of keeping her cruising about in the tropics with a cargo of wine, which she is to carry there for a year to improve its character both from the effects of the temperature and the motion It will be port wine after she gets back into the harbor

A pious but uneducated Judge closed a sentence with the following touching reproach "Prisoner at the bar, nature has endowed you with a good education and respectable family connections, instead of which you go prowling around the country stealing ducks"

The whole of the wrecked bark *Zephyr*, together with the cargo, was bought at auction at Victoria a few days since for $42 50

To the Afflicted —Dr Aborn, corner Third and Morrison streets treats with unparalleled success all chronic diseases no matter how painful or long standing

Periodic Disorders

The paroxysmal maladies which are characterized by heat and cold prevail extensively at this season and it is a curious fact that in many parts of the country where they are prevalent other diseases, that bear no general resemblance to fever and ague or remittent fever, assume a periodic type. Thus in many sections infested with chills and fever rheumatism neuralgia hysteria, diarrhea etc sometimes become intermittent thereby indicating that they have been engendered by the same poisonous exhalations which produce the first named disease

In all these masked cases of ague—for such they are—as well as in the regular intermittents, the most safe and reliable remedy that can be administered is Hostetter's Stomach Bitters Neither quinine nor arsenic are needed Both are in the highest degree dangerous and are sure to leave sad traces of their poisonous action in the system whether they arrest the paroxysms or not In many instances all the so-called specifics of the regular materia medica utterly fail to break up intermittent and remittent disorders But the great vegetable Tonic never fails The spasm of the minute blood vessels which causes the chill is the result of nervous weakness produced by the debilitating operation of an unwholesome atmosphere and the tone and vigor given to the nervous system by the Bitters enable it to throw off the disease The wiser policy however is to anticipate attacks of this nature by arousing all the latent energies of the body at the commencement of the miasmatic season with this incomparable antidote By pursuing this course, intermittents remittents ... and pulmonary affections may always be prevented

TOM HOOD

The Chesapeake Peninsula

The reverence in which this region is held by those who have wandered from it is exemplified by a late remark of Wm H Hooper Delegate to Congress from Utah and a Mormon though not a polygamist He was describing the virtues of Eastern shore cooking when one said

Captain Hooper when were you last on the old peninsula?

Never Madame since I left it thirty five years ago

Why sir from your frequent mention of the place I should think you would want to slip over there at least once every session of Congress

Never, Madame! I never wish to see it again; for I might be disappointed. I always want to remember it as it appeared to me last in the days of my youth the most beautiful spot under the eyes of Providence '

Similar testimony was that of John Custis, father in law by her first marriage of Mrs George Washington The Curtis family had descended in America, from John Custis, a Hollender in name and origin, who received the appointment of Collector of Customs on the Eastern Shore of Virginia in 1687, and whose great estate of Arlington there, and relative fortune in money, attest either the richness of the Eastern Shore at that time, or the antiquity of the Collector of the Customs as we know him, a *Royal* officer of this day The estate of Arlington near Washington City, perpetuates the name of the elder manor of the Custis family near Cape Charles and it is authentic history that the son of the Collector married the daughter of Daniel Parke who carried the dispatches of Marlborough to Queen Anne announcing the victory of Blenheim This second Custis living unhappily with his wife, left this tribute to the Eastern Shore on his tombstone

Under this marble tomb lies the body of the Hon. John Custis Esq., of the city of Williamsburg and parish of B[illegible] [illegible] of Hungers parish on the E[illegible] Shore of Virginia and county of N[illegible] aged seventy-one years, and yet lived but [illegible] years, which was the [illegible] of time he kept a bachelor's home at Arlington, on the E[illegible] Shore of Virginia '

These attestations, however revive the widely known anecdote invented by Hon. Tom Corwin, who used to tell it on the ' stump ' A very old man, with long jaws and high cheek bones, came once upon a time to the witness box of an Ohio Court.

" What is your age? " [illegible]

" Twenty-two "

" You probably mistake the question The years of your life I wish to know the number of them."

" Twenty two!"

" Have you spent all your life in Ohio?"

" Oh! no I did live forty year on the Eastern Sho' of Maryland, but I hope the Lord ain't counted *them* agin me!"

The [illegible] and pronunciation of this region are of habit, and no longer of ignorance

"I do'ne but, " is a mild form of affirmation "A danged sight good deal is an ambiguous estimate of quantity "Won t 'mong ye come to see me!" is a [illegible]what querulous renewal of an invitation "What for a sort of a man" is hardly [illegible] but sounds suspiciously like an imitation of "Fidelity" or [illegible] talk Who can [illegible] an "ill [illegible]—sound day" except upon the theory of natural [illegible] unrelieved by a dictionary? "An else" is a transposition of unless "Right smart" is of universal cur[illegible] it applies to a man of sagacity, to quantity, and to distance; occasionally the word "[illegible]" takes the place of smart, to signify animation 'Cleverness' in Delaware means hospitality and good fellowship solely, never skill, and it is the next diploma below the impe[illegible]ble grade of "[illegible]"

Cousinship is a feature of good family life on the [illegible], the remark [illegible] common of "So and So is my fourth cousin" Extraordinary [illegible] occur here, notwithstanding the [illegible] at times of low fevers, but the E[illegible] Shore is healthy [illegible] the [illegible] and higher coast Crime is rare; society was tranquil during the war; Northern immigration is welcomed, and observes no prejudice

It is to be remarked that from peninsulated regions of the Ch[illegible], closely resembling the Eastern Shore, many of our strongest public men have come, as, for example, Washington, the Lee family, Pinckney and [illegible] and Fal[illegible] Jo[illegible] on, in [illegible], the whole line of Virginia statesmen. William and Mary, and St. John's Colleges are pitched in the [illegible] of the Chesapeake —*George Alfred Townsend, in Scribner's fo[r] March*

A Word with the Chivalry

Under this caption the New York *Tribune* talks to the South [illegible] Mr Sumner's civil rights bill, which they so ve[illegible]

It is a fact that the blacks are here—nearly five millions of them—and are not going away [illegible] may go from time to time, but at least ninety-nine out of every hundred will stay.

It is a fact that they are free, and cannot be re-enslaved You might as well attempt to recover the dew of last Fourth of July morning as to re-enslave these five millions

It is a fact that they vote, as others do, and are eligible to office Six or eight of them are now Members of Congress as more will be, since a majority of the voters are black in at least t[illegible] districts

Do you suppose, can you imagine, that these colored members of Congress are always to journey to and from Washington in [illegible] cars? Can you [illegible] afford to insist that they shall?

We saw a most respected Minister of the G[illegible] driven out of a Philadelphia horse-car—compelled to stand on the front platform or get off altogether—about the time that Philadelphia gave several thousand majority for Lincoln s re-election

Of course, we knew that wouldn't last and it didn't.

Hardly a year ago Frederick Douglass—a Southron born, of whom the South will yet have the sense to be proud—was returning from a most important mission to Santo Domingo in company with Senator Wade and other associates on that mission Reaching at length a Virginia steamboat, almost in sight of a table, there was a call to dinner and the Commissioners went forward when Douglass was rudely stopped at the door—he was a nigger and mustn t presume to eat with white folks! So the Commissioners all lost their dinner, the company lost the pay for it and Virginia had her revenge for Gettysburg and Appomattox

Are we men or children who play such silly games as this?

Suppose the friendship of Hayti should be important to us—and the strong often have need of the weak, as a thousand examples would show We telegraph Hayti to send a special envoy to Washington, and she sends one who lands at New Orleans or Savannah—shall we order him into a negro car and refuse to let him eat till he reaches Washington? If no, why treat him better than the member from Florida or the Senator from Mississippi?

A few days since, a white family, having hired a private box at a theater went thither in due time anticipating an evening of pleasure but their child s nurse was yellow, and could not be admitted so the family went home and sulked through the evening Who profited by their loss?

Men of the South you were once accounted shrewd politicians Does this look like it? Are you not allowing your women to rule you? We entreat you to heed the Englishman s exhortation to his departing friend Be good to yourself John We need no civil rights bill if you will only evince a little homely common sense But shoving your Representatives and Senators in Congress and their wives into filthy smoking cars while you compel them to pay first class fare is a folly which you will surely be ashamed of whenever your heads are cool Isn t it the wise way to do what you ultimately must while yet you gracefully may

Portland Legal Tender quotations 90½c buying and 91½c selling

The steamship *Idaho* left on time this afternoon She carried away a full cargo of Produce

The steamship *California*, from Sound ports and Victoria has not at this writing made her appearance

The bark *Webfoot* has been for the present drawn off the line from San Francisco here having accepted a cargo of Lumber from San Francisco to Callao This is greatly to be regretted as she is a favorite with shippers

A copy of the manifest of the bark *Royal* is given below She sailed from San Francisco Feb [illegible]

Capt Snow of the *Dixie Thompson* reports that no vessel has crossed the Bar since last trip and done to ported off the Bar

Our last mail advices from the East state that freighting via Cape Horn was dull partly occasioned by the snow blockade cutting off correspondence leaving Eastern shippers without orders as well as remittances Rates of freight were weak notwithstanding efforts of interested parties and the tendencies were to lower rates owing to competition for such freights as were in the market. The large amount of room in berth also tended to weaken current rates Freights by measurement were quoted at 12½@20c per foot, as extremes weight ¾c per lb, and $15 per ton oil 60c per case canned goods 32½c candles 12½c per box liquors $3 per bbl nails 70c per keg plaster $1 8½c per bbl lumber $25@30 per M coal in casks $15 and in bulk $13 per ton

Of the vessels loading at last advices Feb 16th owing to continued detention by mail and dullness resulting therefrom it was claimed but two vessels would clear between that and the 1st of March, and they had the greater part of their cargo in The freight offerings though moderate, included a fair business from regular shippers of certain goods such as Oil Nails Oysters Leaf Tobacco Whisky Hardware etc

Steamer freights from New York via Panama were very active with steamers unable to take all offering In view of the uncertainty when the blockade would be raised on the overland route

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT

Oregon and California R R Co and European and Oregon Land Co

PORTLAND, OREGON, August 1 1871

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms

The applicant filing in this office a claim in the form prescribed to wit

Pre-emption date, No ——

To the Land Agent of the European and Oregon Land Company

Sir You are hereby notified that I have settled upon and improved (description of land) in the county of —— State of Oregon containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company s valuation in accordance with the following resolution of the Directors of said Company adopted on the twenty sixth day of May A D 1871 to the terms of which I hereby fully assent

' Resolved That the parties settling upon and improving any of the lands of the European and Oregon Land Company before the same are opened for market shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company; when brought into market provided such settlers shall file in the Land Office of said Company written application giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed notice thereof shall be sent by the Company s Land Agent through the Postoffice or otherwise as may be convenient, to the residence of the party claiming the pre emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person

(Name of applicant)

(Postoffice address)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form

PRE-EMPTION CERTIFICATE NO

This is to certify that of county State of Oregon has this day filed in this office a pre-emption claim to (description of premises) and is hereby entitled to the first privilege of purchasing said land at the Company s valuation (which is to be made without reference to improvements) when the same shall be placed in market in accordance with a resolution of the Board of Directors of said Company adopted May 26 A D 1871

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued and if the land is not purchased by the said party or the holder hereof within sixty days from the date of said notice the Company will be at liberty to sell the land to any other person

(Signed)

Land Agent of the E & O Land Co

The lands will be appraised by a competent, disinterested party under oath at their actual present value—no fancy or [illegible] price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not [illegible] hundred and sixty acres to each purchaser payable in five equal annual installments with interest from date of contract, at ten per cent per annum principal and interest payable in United States Legal Tender Notes Warranty deeds given after United States Patent issues, upon payment in full
